

Subject:- Registration of Manufacturer and Importers for Methyl Ethyl Ketone (MEK) supply.

Our company is a joint sector organization promoted by Government of Gujarat, a progressive state in India and we are one of the largest buyers of Methyl Ethyl Ketone (MEK) in India. Presently we are sourcing MEK on spot basis through various sources to produce MEKO (Methyl Ethyl Ketone Oxime) at our Vadodara Plant.

We propose to import about 350 MT per month MEK either at Hazira Port or Kandla Port. We are now looking forward to have a long term agreement for the supply of bulk MEK on regular basis from reliable and reputed sources, preferably manufacturers on mutually acceptable terms and conditions.

The interested suppliers / Manufacturers are requested to approach undersigned on below contact details with consolidated details of supplier / manufacturer, balance sheet, credit rating, specifications, and all relevant information.
